

OLANIRAN MICHEAL

FRONTEND ENGINEER

PROFESSIONAL SUMMARY

Frontend Engineer with over 4 years of work experience, focused on building scalable, high-performance web applications with React, Next.js, and TypeScript. Experienced in owning core product features and improving usability in complex, workflow-driven systems. Strong emphasis on clean architecture, performance optimization, and designing intuitive interfaces that reduce friction in real-world applications.

WORK EXPERIENCE

Frontend Engineer | 2024 - Present

Oneport365

- Improved booking page performance by optimizing data handling and rendering logic for large datasets, reducing load time and improving responsiveness during high-volume usage.
- Led the reskinning of the customer platform, improving UI consistency across multiple product areas and enhancing overall user experience.
- Enhanced the shipment tracking feature, contributing to increased user engagement and helping drive higher platform usage among customers.
- Built responsive, high-performance interfaces using React, Next.js, and Tailwind CSS for data-intensive, workflow-driven applications.
- Developed reusable UI components and patterns, reducing duplication and improving development efficiency across the codebase.
- Collaborated cross-functionally to deliver scalable frontend solutions aligned with evolving product requirements.

Frontend Developer | Jan 2023 – Oct 2023

CoinRateCap

- Enhanced the product launch page by building responsive, high-performance frontend components with React, Next.js, Tailwind CSS, and TypeScript, improving overall user engagement
- Implemented the shield page with reusable, consistent UI patterns, simplifying the user journey and reducing development overhead

Frontend Developer (Internship) | Oct 2022 – Dec 2022

HNG Internship

- Collaborated with mentors and peers to deliver functional features aligned with project goals within tight deadlines.
- Contributed to building responsive web interfaces for multiple projects using HTML, CSS, React, Redux, Redux-saga and Tailwind CSS, enhancing user experience and interface consistency

ACADEMIC HISTORY

Aptech | 2022-2024

Advance Diploma In Software Engineering

- GPA: Distinction
